

The Real Gina Johnsen Tool Kit

Talking Points Available to Print Here: <https://tinyurl.com/ginatp>

The Facts:

- Gina Johnsen voted 'YES' to Gretchen Whitmer's \$81.7 billion dollar budget in 2023.
- The Whitmer/Johnsen budget included additional funding for Diversity, Equity, and Inclusion Research.
- The Whitmer/Johnsen budget included a \$218,000 salary for a new Diversity, Equity, and Inclusion Coordinator.
- The Whitmer/Johnsen budget funded a \$2.9 million affirmative action giveaway to a 'Minority Farmers' Fund.' More taxpayer money going to racial giveaways and identity politics that are anti-conservative.
- The Whitmer/Johnsen budget gave \$10 million worth of grants for minority only Small-Business Owners. More racial welfare giveaways!
- The Whitmer/Johnsen budget gave \$2 million to an Immigrant & Refugee Center, helping more illegal aliens who have flooded the border be resettled and given handouts in Michigan!
- The Whitmer/Johnsen budget gave \$5.1 million for the Michigan State Capitol Commission to institute a weapons-ban.

Dispelling the Spin:

Spin: Gina's Vote Didn't Matter Because Democrats were going to pass the budget anyway.

Rebuttal: WRONG! Gina's betrayal gave bipartisan cover to Whitmer and the Democrats. They can now say that the budget was bipartisan and supported by Republicans and Democrats. Democrats no longer own this far-left policy and gargantuan spending. The blood is on the hands of Republicans too. The spending is also normalized and more likely to be expanded in years to come.

Spin: Gina voted in favor of the \$82 billion dollar budget because she negotiated for some backroom deals, including wastewater treatment plants in her district.

Rebuttal: This is no excuse. This is how the swamp operates. They bribe off people with pork-barrel spending they support in order to get terrible, anti-conservative things passed. This is an example of everything that is wrong with our politics. Also, Gina Johnsen could have voted against the budget and those projects still would have been funded because Democrats had enough votes to pass the measure. So Gina Johnsen and her supporters are just offering pathetic excuses for why she has sold us out, appeasing Democrats, and keeping the toxic Lansing status quo in place!

Spin: We can't get rid of Gina because then she might get replaced with a Democrat!

Rebuttal: Gina's House District 78 is very solidly red and Republican. This means whoever wins in the Republican primary is almost assured to win the general election in November. Gina's primary opponent, Jon Rocha, is a proud military veteran who has been endorsed by President Trump in the past and has a history as a conservative activist of supporting election integrity and fighting to root out political corruption. He is the better option than Gina Johnsen for voters in District 78.
